### **Webinar: 'A Beginners Guide to Technical Analysis'**

The Seminar Committee of Department of Business Economics, Aryabhatta College conducted the 4<sup>th</sup> edition of their alumni Series on the topic 'A Beginners Guide to Technical Analysis'. The webinar was led by our very own Alumni Mr. Sumit Gupta (Batch 2016-19). Mr. Sumit Gupta is a Private Equity Advisory at Edelweiss Financial services.

The session was initiated by our honourable Principal Prof. Manoj Sinha who welcomed our guest and appreciated the organizing team for their efforts. The session was very insightful covering every little detail about how technical analysis can help in tracking markets. The speaker explained the concept of price movements in market in an interesting manner using charts and graphs. The special emphasis on investment and the explanation of basics made it easy for everyone to understand.

The students were very enthusiastic about the topic and were able to gain some practical knowledge from our speaker's experience. It was an interactive session wherein both the students and the faculty asked questions making the QnA segment as informative as the session, while the speaker took them up patiently and gave out detailed descriptions.

It was indeed an engaging session and helped us understand the overall concept of technical analysis, how it is to be done and how it plays a vital role in providing early signals before the reversal of the trend. A total of 70 students attended the session.
