

WINNERS: RACE FOR BETTER INDIA 2022 UN SDG: CLEAN WATER AND SANITISATION

Every year **Enactus Global** conducts **4 Races** focussing on separate sustainable development goals to provide an impetus to the different Enactus chapters who are working in that specific SDG domain and give them a chance to get project scaling funding, mentorship, and recognition for their projects.

Following suit, **Enactus India** in the tenure 2021-22 announced the initiation of the **Race for a Better India**. The mission behind this race is to further advance the Enactus projects working along the following **five UN SDGs**: No Poverty, Zero Hunger, Good Health and Well-being, Quality Education and Clean Water and Sanitation.

The participating teams were required to submit an **action entry form** and create a **60-second reel** to support the action entry form. This race was open for participation from both Mature stage and Early stage projects. Two winners were announced from each SDG category.

Once again being recognised nationally for the confident strides that Project Palaash is taking towards achieving the aim of a sustainable world, it was awarded the **winners** position in the Race SDG, **'Clean Water and Sanitisation'**. The project received **Rs 25,000** in project scaling funding from Enactus India to further empower the project's strides towards sustainability.
