HOW TO START YOUR FIRST INVESTMENT?

- Set the financial goals for your life
- Determine the time frame of each financial objective.
- Divide each financial objective into short, medium, and long term goals.
- Whatever the market level, continue investing to build long-term wealth. Never try to **TIME** the market as it is next to impossible.
- It is always better to participate in the market all the time as we never know when we may experience the bear or bull rally.
- There are no easy ways and shortcuts to **SUCCESS AND WEALTH CREATION**. Always keep this in mind.
